

CUSTOMER SERVICE SPECIALIST PROGRAM

Professional customer relationship management through effective customer service is a specialty that requires understanding and mastery of a wide array of skills and competencies. The Customer Service Specialist (CSS) program prepares students as customer service professionals with foundational skills in service operations and management of customer relationships. The importance of communication, customer data analysis, and organizational metrics are integral in maintaining quality in the customer service delivery and experience. The program's theory and practice are delivered through classroom lecture and activities that reflect the diverse environment of modern organizations. The CSS Program prepares students for further study in higher education as well as a wide variety of careers. Upon successful completion of the program, students will receive a certificate of completion.

Certification exam preparation and fees for 1 exam are included with this program.

COURSE DESCRIPTION

CUSTOMER RELATIONSHIP MANAGEMENT

12 Qtr. Credit Hours / 11 Weeks
90 Externship Hours

Students will be introduced to theories, principles, strategies, initiatives and resources to establish, maintain and project successful customer relationships in a growing business enterprise. Course content is derived from a variety of resources regarding the value of customer relationship management, customer data portfolio analysis, and awareness and respect for customer intimacy and loyalty. Through lecture and projects, students will acquire and develop analytical thinking skills.

CUSTOMER SERVICE AS A CAREER

12 Qtr. Credit Hours / 11 Weeks
90 Externship Hours

The course materials utilize theoretical resources from psychology and contemporary models of human behavior to reinforce the value of a methodical approach to managing customer relationships. Students will survey and develop a broad understanding of the diverse array of opportunities derived from an education in customer service management. Through lecture and projects, students will review case studies of real and hypothetical businesses with a focus on customer service concepts and principles. Students will explore practical applications of customer service within various career fields.

STRATEGIES IN SERVICE OPERATIONS

12 Qtr. Credit Hours / 11 Weeks
90 Externship Hours

This course introduces the concepts, principles, problems, and practices of operations management, and the production and delivery of goods and services. Topics include operations strategy, process design, capacity planning, facilities location and design, forecasting, production scheduling, inventory control, quality assurance, and project management. Students will also get a chance to explore the dynamics of internal and external customers and how to deliver value to both.

CUSTOMER SERVICE COMMUNICATION

12 Qtr. Credit Hours / 11 Weeks
90 Externship Hours

Students will learn fundamental customer service, telephone etiquette, sales techniques and professionalism. Topics include optimal communication techniques, rapport building and problem solving. Students will participate in realistic simulations to improve communication and meet objectives in a call center and other customer service environments.

EXTERNSHIP

The curriculum for this program incorporates classroom learning and practical experience gained through required externship. The externship component of the course provides students with the opportunity to apply and integrate knowledge and skills acquired through their coursework. In clarifying and broadening career goals, the externship experience assists students in discovering, developing and refining necessary competencies and skills for their proposed career objectives. The student's externship position must meet at least 70% of the program objectives listed below.

EXTERNSHIP OBJECTIVES

- Participate in the planning and analysis of successful daily customer service activities
- Execute customer service strategies that will expand the business' customer base
- Support service strategies in operations management
- Work with frontline customer support service programs and serve as a liaison between the company and the customer
- Analyze customer satisfaction through the use of surveys, social media, and other industry accepted practices
- Demonstrate persuasive communication skills in interactions with customers and business partners
- Apply proper techniques to effectively manage complex customer service cases
- Demonstrate effective leadership skills to foster teamwork and develop a positive work environment
